## **Guidelines for the discussion of SUDEP with children with epilepsy and their families.**

SUDEP is defined as:

*“The sudden, unexpected, witnessed or unwitnessed, non-traumatic*

*and non-drowning death in patients with epilepsy, with or without evidence for a seizure and excluding convulsive status epilepticus in which post-mortem examination does not reveal a toxicological or*

*anatomical cause for death.”*

Epilepsy is not a single disorder, rather a group of syndromes with different clinical phenotypes, causes and prognoses. This fact is of huge importance when discussing epilepsy and the risk of death with families. It is not appropriate to discuss epilepsy as though it were a single disorder. Diagnosing a child’s specific epilepsy syndrome and cause of the epilepsy may better inform doctors about the risks of premature death and SUDEP for individual children which can then be shared with the family.

Risk of SUDEP is known to be higher in those patients:

with poorly controlled seizures;

who are poorly compliant with treatment;

who have symptomatic epilepsy;

who have associated neurological comorbidity;

who have associated significant learning difficulties.

**SUDEP should always be discussed with families of children:**

With symptomatic epilepsy, (ie epilepsy in the context of a structural brain abnormality, metabolic disorder or neuro-degenerative disorder)

With drug resistant tonic-clonic seizures;

With associated severe neurological impairment;

Who ask direct questions about death and epilepsy.

**Discussion about SUDEP should be considered in children:**

With additional learning difficulties;

With additional physical difficulties;

Who are not complying with treatment;

Who are resisting treatment.

**SUDEP does not need to be routinely discussed with families of children:**

With benign familial infantile seizures;

With childhood absence epilepsy;

With benign partial epilepsy with centro-temporal spikes;

With well controlled idiopathic generalised epilepsy.

Ideally, discussion regarding SUDEP should be done in the epilepsy clinic by a consultant.

The content of the discussion should be clearly documented in the patient's hospital notes and included in the correspondence to the GP that is copied to the parents and child. The family should also be given a generic information sheet on "epilepsy and death".

## **2. Guideline Governance**

### **a. Scope**

This guideline is relevant to all staff caring for all children from 0-18 years old across the emergency department, inpatient ward and outpatient department.

### **b. Purpose**

- i. This guideline aims to facilitate a common approach to the management of children. At times deviation from the guideline may be necessary, this should be documented and is the responsibility of the attending consultant.
- ii. This guideline is subject to regular review to ensure ongoing evidence based practice.

### **c. Duties and Responsibilities**

All healthcare professionals responsible for the care of all children 0-18years should be aware of practice according to this guideline.

### **d. Approval and Ratification**

This guideline will be approved and ratified by the Paediatric Guidelines Group.

### **e. Dissemination and Implementation**

- i. This guideline will be uploaded to the trust intranet 'Paediatric Guidelines' page and thus available for common use.
- ii. This guideline will be shared as part of ongoing education within the Paediatric Department for both medical and nursing staff.
- iii. All members of staff are invited to attend and give comments on the guideline as part of the ratification process.

### **f. Review and Revision Arrangements**

- a. This policy will be reviewed on a 3 yearly basis by the appropriate persons.
- b. If new information comes to light prior to the review date, an earlier review will be prompted.
- c. Amendments to the document shall be clearly marked on the document control sheet and the updated version uploaded to the intranet. Minor amendments will be ratified through the Paediatric Guidelines Group. A minor amendment would consist of no major change in process, and includes but is not limited to, amendments to documents within the appendices.
